QUEENS-CHICORA COLLEGE

HISTORY

In 1856, certain enterprising people, members of the Presbyterian Church, organized a stock company in Charlotte, North Carolina, for the purpose of providing education for young women. The next year a building was erected on what is now College Street. The Reverend Mr. Robert Burwell and his wife, Margaret Anne Burwell, educators from Hillsboro, North Carolina, came to head this newly organized institution which was called The Charlotte Female Institute.

In 1901, under the presidency of Dr. J. R. Bridges, the college, still on College Street but now under ecclesiastical control, was known as The Presbyterian College for Women. In 1912, under the presidency of Dr. J. L. Caldwell, the college changed its location to wooded grounds of approximately twenty-six acres in the beautiful residential section of Myers Park and, once again, changed its name to Queens College.

The present name, Queens-Chicora College, was adopted at the time of the merger of Chicora College with Queens College in 1930-31. (Chicora College, organized in Greenville, South Carolina, moved in 1915 to Columbia, South Carolina, where it remained until the time of the merger.) Queens-Chicora College, continuing in its Charlotte location, is under the ownership and control of the Synod of South Carolina, and the Presbyteries of Mecklenburg, Kings Mountain, and Granville in the Synod of North Carolina. In 1933 the college was admitted into the Southern Association of Colleges and Secondary Schools.

LOCATION AND BUILDINGS

Charlotte, the largest city in the two Carolinas, is an ideal location for a woman's college. The city itself has much to offer which a smaller city has not. In addition to its general advantages, Charlotte offers, through its many civic organizations, a distinct cultural phase of community life. The League

of Women Voters, the Charlotte Music Club, the Charlotte Symphony Orchestra, The Little Theater, the North Carolina Poetry Society, and other such organizations are actively engaged in sponsoring art exhibits, concerts, plays, lectures, and programs of general interest to the public. To these, the students of Queens-Chicora are warmly welcomed.

The college campus is situated in the heart of Myers Park, one of Charlotte's most beautiful residential sections. On its large wooded campus are seven buildings, substantially built of tapestry brick and limestone, with tile roofs.

The administration building, occupying the center position of the group, contains the offices, a large reception hall, two reception rooms, the college library, and a number of class rooms. The Atkinson Memorial Building, to the left of the Administration Building, is used for science and art courses. On the first floor are five class rooms and the physics laboratory; on the second floor are the chemistry, biology, and home economics laboratories, and the art studio. Facing the Atkinson Memorial Building is the Ninniss Music Building. The auditorium in this building has a seating capacity of five hundred and is equipped with a three-manual organ and two concert grand pianos. In addition, there are twenty-six small practice rooms and studios, all furnished with pianos.

There are two main dormitories in this group of buildings: Lily Long Hall, formerly North Hall, and Mildred Watkins Hall, formerly South Hall. In addition there is room for forty students in Sara E. Morrison Hall. The rooms in these buildings are comfortably planned. Between every two rooms is a bath with hot and cold water. Each room has a large closet, two built-in dressers, two single beds, three chairs, and a full-length mirror. All dormitories are equipped with steam heat.

Sara E. Morrison Hall, built in 1927 with a generous gift of $83,000 from Mrs. Sara E. Morrison, contains the dining hall, with seating capacity of four hundred. There are private

dining rooms, linen closets, a modern kitchen, and storage rooms. On the ground floor is a modern refrigerating plant with ice-making facilities and ample cold-storage for the college food supply. The kitchen and storage plant are provided with modern equipment which insures hygienic standards.

The most recent addition to the campus is Blair Union, erected in 1934, named in honor of the college's beloved late dean, Dr. Elizabeth Blair. This building with its lounging room, kitchen, dining room, study hall, and lavatories is for the particular use of the day students.

In addition to the main buildings described above, there are ten other buildings, including the infirmary, the president's home, six sorority houses, a model practice house, and Y. W. C. A. hut. The hut, a gift from Mr. and Mrs. C. Ernest Moore, offers a convenient place for religious and social gatherings.

HEALTH

Conditions conducive to a high standard of health are maintained at the college. Physical examinations are given to all students by the physical director at the beginning of the year, and special attention is given to keeping the entire group physically fit. A registered nurse is in charge of the infirmary and she gives her entire time to those who need her care. This service is without charge except for medicines, special nurse's and physician's fees, and expenses incurred in the case of contagious diseases.

ATHLETICS

Athletic games and courses in physical education are offered in keeping with the general aim of education. Disciplinary, hygienic, and recreative development are specific aims of athletic activity. Because the winter is so mild, there are opportunities for some out-of-door sports during the entire year. Tennis courts are provided. A tennis tournament is held in May; class

basket ball games are held in February; Field Day events occur in March; and the May Day Festival brings to a climax the activities of the year. Throughout the work of the year, it is the purpose of the Department of Physical Education to develop coördination and team play and to establish habits of health and good posture. Students will purchase a simple regulation uniform for athletic work after arrival at the college. A small allowance should be made for this purpose.

VISITORS

Callers may be received on Sunday afternoon in the parlors between the hours of 2:30 and 5:00, on Saturday evenings, and at such other times as may be arranged for with the dean of women. Sunday calling is not encouraged but is allowed in special cases. Boarding students are required to report to the dean of women the names of guests who are to be entertained at the college. They must also purchase meal tickets at the Business Office. Only members of the immediate family may be entertained in the dormitories over-night during the week. The college maintains no guest room but rooms may be engaged near by when desired.

Requests which are to be granted for week-end absences must conform to student government regulations and must be mailed directly by parents to the dean of women.

RESIDENCE

All out-of-town students are required to live at the college unless living with near relatives in the city.

GOVERNMENT

The Student Government Association, based upon a charter granted by the Board of Trustees of the college and supervised by the administration, controls student activities and student conduct. Social privileges are gladly extended by the college, but it is understood that such privileges, as well as week-end

absences, are conditioned upon good scholarship and good citizenship.

Representatives from both resident and non-resident students compose an executive board who, with the President and Dean of Women, acts upon matters of common interest. With the President rests the final decision in all matters pertaining to government.

SUNDAY TELEPHONE

We do not keep a telephone maid on duty on Sunday, nor at night, but the telephone in the President's home is available for distress calls twenty-four hours in the day and seven days in the week. Any extreme illness or death should be reported over the President's 'phone.

RELIGIOUS LIFE

The college makes every effort to encourage and to promote the spiritual life of the student through the Student Christian Association, through Sunday evening vesper services and through class room instruction in the Bible. Both faculty and students are expected to attend church regularly and by their presence to support participation in Sunday vespers.

The Sabbath is to be regarded as a day of rest. Returning to the college on that day is forbidden both to faculty and students.

Though founded by Presbyterians, Queens-Chicora scrupulously respects church preferences of students. Every effort is directed toward developing "Christian Women for Christian Service" and toward deepening spiritual life.

HANDBOOK

A handbook published by the student body gives detailed information concerning student organizations and concerning regulations and privileges of the students. It contains full information about laundry, room furnishings, and other matters of personal interest. A copy of this book will be sent to each new student when it comes from the press. Do not write to College authorities for it.

ADMISSION OF STUDENTS

Students are admitted under one of the following divisions:

1. Freshmen—(A) By certificate or (B) By examination.

A. Graduates of accredited secondary schools, presenting at least fifteen units required and elected as listed below, are admitted without condition on the recommendation of the secondary school principal. Application for admission by certificate should be made through the office of the president of the college.

B. Applicants who are not graduates of approved secondary schools may be admitted by examination taken one week prior to the opening of school. Such applicants must present fifteen units required and elected as listed below. Applications for admission by examination should be made to the president of the college.

2. To Advanced Standing—Students may be admitted to advanced standing by certification from the college where their previous work has been taken. Only students from standard institutions will be received. Each person applying for admission is required to forward to Queens-Chicora College (1) an official statement of credit, including entrance credits, (2) an honorable dismissal from the institution, (3) a catalogue of the school previously attended.

3. Irregular Students—An irregular student is one who meets the regular requirements for entrance to the college, but who, for a reason approved by the classification committee, does not wish to pursue a regular course leading to a degree or a certificate.

4. Special Students—Any student who is unable, for any cause, to present the entrance requirements, may be admitted to such courses as she may be able to take, provided these courses are not among those covered by such entrance requirements. This provision is made for the purpose of receiving students

who have been out of high school for a considerable time, and the credit of whose work may have become void. Such entrants must be over twenty years of age. They shall be deprived of class standing and shall not take up a regular degree course until entrance requirements are met.

REQUIREMENTS FOR DEGREES

DEGREES OFFERED

The degrees offered by the college are Bachelor of Arts and Bachelor of Science.

GENERAL REQUIREMENTS FOR DEGREES

The Bachelor of Arts degree requires 124 semester hours; the Bachelor of Science degree, 124 to 126 semester hours. The hours must be so chosen as to contain a major of twenty-four to thirty semester hours in one department, and a minor of eighteen semester hours in a related department. Three years of Physical Education are required in addition to the semester hours of college work designated.

One *semester hour* represents the amount of credit allowed for one hour's class work a week for the semester. In general, two hours of laboratory work are considered the equivalent of one hour of lecture work.

The candidate for a degree must achieve 124 quality points.

At least one year must be spent in residence for a degree. The student must be in residence at the time the degree is conferred.

Requirements for the Degree of Bachelor of Arts

In the junior and senior years the remaining specific requirements and the major and minor are completed.

GROUP II. PUBLIC SCHOOL TEACHING

The Public School Teaching course follows the outline for Group I. During the junior and senior years students desiring elementary or high school teachers certificates are prepared to meet the individual state requirements for class "A" certificates.

GROUP III. PRE-SOCIAL WORK

The Pre-Social Work course is designed to prepare students for graduate study in a professional school of social work. Subject matter essential to social work has been specifically adapted from the social and biological sciences. Elementary technical, scientific, and philosophical phases of social work, as a basis for effective practice, are presented. The course as outlined offers a major in social work. The electives provide for a minor in English, history, foreign languages, or psychology.

GROUP IV. PRE-MEDICAL

The Pre-Medical course is designed to prepare students for entrance into medical colleges. Students who wish to pursue this course should consult the dean of instruction. The course may be completed in three years. If the student who follows this course wishes to continue in college four years, the additional subjects required for graduation from this college may easily be taken during the senior year.

Credit for Music, Spoken English, Art, and Home Economics

Courses in these departments may be elected and credits allowed as follows:

1. Music—theoretical and practical—eighteen semester hours, of which not more than twelve semester hours may be in practical music—piano, organ, voice, or violin.

2. Spoken English—eighteen semester hours.

3. Art—twelve semester hours of applied art and twelve semester hours of theoretical art; not more than twelve hours of applied music and applied art combined may be taken.

4. Home Economics—nine semester hours, to be taken from the following courses: Child Care, Household Management, Home Nursing, Costume Design, and Home Planning and Furnishing.

GROUP II. NURSING

The college in conjunction with the Presbyterian Hospital School of Nursing offers a six-year course leading to a Bachelor of Science Degree and Diploma in Nursing. This course meets in full academic and nursing requirements and qualifies for executive and supervisory positions in the nursing field. It is designed to equip nurses with a high type of professional training and with an enriched cultural background. To provide this training, courses are offered in literary subjects and in physical and social sciences. Students who wish to pursue this course will spend the first two years at the college, the following three years at the hospital, and the final year at the college.

The courses carried in the hospital are taught by hospital staff physicians holding medical degrees and by nurses holding college degrees.

Group III. Music (See Fine Arts)

Group IV. Secretarial Administration

The secretarial course offers the liberal arts background with practical training in the field of business. The student following this course may secure an A.B. degree and a certificate in business subjects. The course of study follows that of Group I for the freshman and sophomore years. The major and minor should be in the fields of English, social sciences, language, or psychology. No credit is given for commercial courses on an A.B. degree. Secretarial courses pursued are: Secretarial Science 31, Accounting 21, and Office Practice 42a. The following courses are also required:

Mathematics 1-2	6 semester hours
Psychology 40b	3 semester hours
Economics 3a	3 semester hours

For those who already have their degree or who for some reason wish to learn stenography in a minimum time, a one-year intensive course is offered, including the following: Shorthand, typewriting, office practice and machines, bookkeeping, and business English and correspondence. Upon successfully completing this course a certificate is awarded the student. This course will be limited to 45 selected students. High school transcripts must be in the dean's office before the application is accepted.

The B.S. degree in Secretarial Administration is awarded to those students who satisfactorily complete the following program of studies.

Extension Courses

The college offers extension courses each semester in Charlotte. These courses are taught by members of the college faculty, and, when all requirements are met, give the same credit as courses in residence. Those not wishing degree credit are also eligible to enroll in extension classes. The classes meet either in the evening or afternoon for an hour and forty minutes during sixteen to twenty-four weeks, for which two or three semester hours credit may be earned.

Coöperating with the State Department of Education, the college conducts a carefully arranged program for the training of teachers now working in the schools. The aim of the program is to improve instruction in the schools and to offer opportunities for the professional growth of teachers.

ADMINISTRATION OF CURRICULUM

Students are expected to familiarize themselves with the plan of the curriculum and to enroll for one of the regular courses offered by the college. Only a small number of irregular and special students will be accepted. Such students have no class standing and take freshman privileges.

Courses begun by a student must be completed except by permission of the dean of instruction. A student discontinuing a course after the second week of the semester will receive a semester grade of F for that course.

All courses numbered 3 or above are open only to juniors and seniors except by special permission.

Parents making requests concerning courses of students must submit such requests at the beginning of each semester.

Attendance Upon Classes and Other College Exercises

Students are expected to attend classes regularly. In order that a high standard of efficiency may be maintained, the following regulations have been adopted:

1. All students should report promptly for registration on the day appointed. Late registrants will incur class cuts.
2. Absences from a class 48 hours prior to or subsequent to a holiday or a vacation will not be granted.
3. Five absences per semester are allowed for each three-semester hour course. Four absences are allowed for each two-semester hour course. Absences in excess of this number will result in the loss of quality points. Since 124 quality points are required for graduation, excess absences should be avoided. Students should be careful to save these absences for unavoidable occasions, such as illness or other emergencies.
4. Absence from an announced test is recorded as a double absence.

5. Three tardies are recorded as an absence.
6. All members of the faculty and of the student body are expected to attend chapel exercises.
7. Laboratories. No cuts are allowed in laboratory sections. Absences caused by serious illness must be made up immediately.

Classification

1. Students who have met the entrance requirements and are taking a regular course leading to a degree or certificate shall be classified as freshmen.
2. Students who have achieved 24 semester hours of college work and 12 or more quality points shall be classified as sophomores.
3. Students who have achieved 54 semester hours of college work and 30 or more quality points shall be classified as juniors.
4. Students who have achieved 86 semester hours of college work and 51 or more quality points shall be classified as seniors.

Hours of Work Limited

Freshman A.B. students are permitted to carry not more than sixteen hours of regular courses a week; upper classmen not more than seventeen. One extra course may be taken by those students averaging "Merit" on the work of the previous semester.

Each student except irregulars and specials must carry a minimum of fifteen hours a week.

Examinations, Gradation, and Reports

The college session is divided into two semesters, and comprehensive examinations are held at the close of each semester's work. A report of the student's work is sent to the parents or guardian at the end of each semester.

The grading system is as follows:

Distinction, carrying 3 quality points per semester hour.
Merit, . . . carrying 2 quality points per semester hour.
Pass, . . . carrying 1 quality point per semester hour.
Low pass, . carrying 0 quality point per semester hour.
Failure, . carrying —1 quality point per semester hour.
Condition.
Incomplete.

Conditions

A condition grade may be removed by a re-examination. Examinations for conditioned and incomplete work of the first semester must be taken by or during the week of March the fourth. Examinations for conditioned and incomplete work of the second semester must be taken by or during the day before fall registration. If, for providential reasons, the examination is not taken on or by the above dates, a special examination may be given with the consent of the dean of instruction and upon payment of fee of two dollars. Only one re-examination is allowed on any course. If the student removes the condition by re-examination, the grade recorded for the semester shall be *passing*. A semester grade of *failure* requires the repetition of the course.

Automatic Exclusion

A freshman is required to pass six semester hours of work the first semester, and sufficient hours the second semester to total fifteen for the session. Other students are required to pass nine semester hours each semester. A student failing to pass the required hours in any semester is automatically excluded from the college at the end of that semester; except that the faculty may suspend the application of this rule for the first semester, and by special action, place a student on probation until the end of the session.

Summer School Work

Students desiring to take courses in accredited summer schools and to receive credit for same towards graduation must first secure the approval of the dean of instruction and the head of the department concerned, both as to the courses to be taken and the institutions to be attended. In no case will credit be allowed beyond that given by the institution conducting the summer school.

COURSES OF INSTRUCTION

THE BIBLE AND RELIGIOUS EDUCATION

These courses openly recognize a basic assumption; namely, that God has spoken through the inspired Word and especially through Jesus Christ. The Bible itself is put fearlessly at the center of the courses offered, and is allowed to make its own impression, to bring its challenging message to the heart of each student. It likewise has a significant place in the courses offered in Religious Education. Because we believe the Bible as the Book of the ages is able to take care of itself, our aim is not primarily to defend but rather to understand; for the sacred page once written by holy men under the moving of the Holy Spirit may be understood by other men through the illumination of that same Spirit. Our purpose is not merely to know the Bible, but to know the God revealed in the Bible through a growing experience in the inner man.

PHYSICAL SCIENCES

Chemistry

PROFESSOR GRAHAM — ASSISTANT PROFESSOR MCEWEN

1a,b. GENERAL CHEMISTRY. A study of the fundamental principles of chemistry and the more recent theories and discoveries.

Prerequisite to all other courses in chemistry.
Three hours lecture, three hours laboratory, throughout the year. Credit, eight semester hours.

2a. ANALYTICAL CHEMISTRY: QUALITATIVE ANALYSIS: A discussion of the theories underlying analytical work; laboratory work in characteristic reactions of basic and acidic ions.

Two hours lecture, three hours laboratory, first semester. Credit, three semester hours.

2b. ANALYTICAL CHEMISTRY: QUANTITATIVE ANALYSIS: Gravimetric and volumetric methods of analysis.

Two hours lecture, six hours laboratory, second semester. Credit, four semester hours.

3a,b. ORGANIC CHEMISTRY. A study of the carbon compounds of the aliphatic and the aromatic series; laboratory work in the synthesis of organic compounds.

Three hours lecture, three hours laboratory, throughout the year. Credit, eight semester hours.

30a. ORGANIC CHEMISTRY. A survey course dealing with the important compounds in both series.

Two hours lecture, three hours laboratory, first semester. Credit, three semester hours.

30b. Food Chemistry and Household Chemistry. A study of the chemical composition of foods and the chemistry of nutrition. Introduction to Physiological Chemistry.

Prerequisite, Chemistry 30a.

Two hours lecture, three hours laboratory, second semester. Credit, three semester hours.

4a. Advanced Organic Chemistry. Lectures on the structure of dyes; laboratory work in organic preparations and organic qualitative analysis.

Prerequisite, Chemistry 2a and 3.
Two hours lecture, three hours laboratory, first semester. Credit, three semester hours.

4b. Advanced Inorganic Chemistry. Discussion of the leading theories and reports on recent research.

Prerequisite, Chemistry 2.
Three hours a week, second semester. Credit, three semester hours.

40a. Quantitative Analysis. Analysis of ores and minerals.

Prerequisite, Chemistry 2.
One hour lecture, six hours laboratory, first semester. Credit, four semester hours.

40b. Elementary Physical Chemistry. Selected topics in theoretical and physical chemistry.

Prerequisite, Chemistry 2 and 3.
Two hours a week, second semester. Credit, two semester hours.

5b. History of Chemistry.

Prerequisite, Chemistry 2 and 3.
Two hours a week, second semester. Credit, two semester hours.

50a,b. HONORS COURSE. Reading and experimental work on special topics. Open to Seniors majoring in chemistry. Prerequisite, reading knowledge of French or German. Hours and credit to be arranged.

MAJOR: required courses, 1, 2, 3, 5b, and five hours elective from courses 4a, 4b, 40a, 40b.

MINOR: required courses, 1, 3, and three hours elective from 2a, 2b, or 4b.

Physics

PROFESSOR GRAHAM

2a,b. GENERAL PHYSICS: An introductory course for students who desire a general cultural course; a basis for further work in physics.

Three hours lecture, two hours laboratory, throughout the year. Credit, six semester hours.

3a. ELECTRICITY AND MAGNETISM. Lectures, discussions, and problems.

Two hours a week, first semester. Credit, two semester hours.

3b. HEAT, LIGHT, RADIOACTIVITY. Discussion of new theories and recent literature.

Two hours a week second semester. Credit, two semester hours.

30b. HOUSEHOLD PHYSICS.

Two hours lecture, two hours laboratory, second semester. Credit, three semester hours.

SCIENCE MAJOR: thirty hours of biology, chemistry, and physics. This includes at least two year-courses of biology or chemistry with one year-course of the other and one year-course of physics.

Science Minor: twenty or twenty-one hours of biology, chemistry and physics. Minor may be taken only with a chemistry, biology, or mathematics major. With a mathematics major two years of chemistry or biology and one year of physics are required. With a chemistry or biology major two years of the non-major science and one year of physics are required.

Chemistry 30a, Chemistry 30b, Bacteriology 30b, Biology 20b, and Physics 30b may not be used for major or minor credit.

PSYCHOLOGY AND PHILOSOPHY

Psychology

Professor Abernethy

2a. Introductory Psychology. A survey of the general principles of psychology.

Note: Choral required of all voice and school music students.

Organ

Entrance requirement. Students should not commence the study of this instrument until a good practical knowledge of pianoforte technique has been obtained.

As the organ is principally used in connection with the church service, opportunity will be afforded, from time to time, for organ students to play for worship, and special attention will be given to the art of service accompaniment.

Course of study. The work in organ playing includes a thorough grounding in such foundation studies as those of Stainer, Best, Rink, and Buck, which lead up to the study of

the works of Bach, Mendelssohn, Lemmens, Widor, and others. When sufficiently advanced, students will have opportunity given them to play for college service, while the art of church choir accompaniment receives full attention. Organ construction and stop registration are duly studied.

Organ pupils taking one-half hour per week will be limited to one hour's practice a day.

Piano

Entrance requirement. To enter the four-year degree course in piano the student should be able to play all major and minor scales in moderately rapid tempo in all keys and should have acquired systematic methods of practice. She should have studied some of the standard etudes, such as Czerny, opus 299, and a few Bach two-part inventions.

Course of Study. At the end of the second year the student should have played the Bach Two and Three Part Inventions, or a Mozart Sonata, the Chopin Preludes and Waltzes and compositions of other Romantic composers. At the end of the third year the student must know the French and English Suites of Bach, the Beethoven Sonatas, and modern compositions. The fourth year is spent in working up a public recital. The student's program must include numbers from the Classic, Romantic, Impressionistic and modern composers. In addition one movement of a concerto must be played and a group of compositions for two periods.

Voice Culture

Entrance requirement. To enter the four-year course in Voice the student should be able to sing on pitch with correct

phrasing and musical intelligence. She should also demonstrate her ability to read a simple song at sight and have a knowledge of the fundamentals of music. Some knowledge of piano is urgently recommended.

Course of study. At the end of the second year the student should have acquired a knowledge of breath control, principles of enunciation and pronunciation as applied to singing, tone placement, and the essentials of interpretation. She should demonstrate her ability to sing major, minor, and chromatic scales, arpeggios, contrasting exercises for agility and for sustaining tone and classic vocal embellishments. She should demonstrate a knowledge of recitative and the ability to sing oratorio and several standard songs from memory. She should also have acquired knowledge of one language in addition to English. At the end of the fourth year the candidate for graduation should demonstrate the ability to sing the more difficult arias of opera and oratorio in English and in two foreign languages, a knowledge of recitative and of general song literature, and the ability to give a creditable recital.

Class Instruction in Voice Training. Group instruction in the correct use of the singing voice is offered. The course includes the following: breathing, resonance, a study of vowels and consonants, diction, and standard songs.

BUSINESS INFORMATION

Admission to Classes Upon Payment of Charges

All charges are payable in advance as they become due. No student will be admitted to classes on entrance, or after any date for the payment of charges until the charges then due are paid.

College Bank

The College offers its services to students and faculty in the capacity of a college bank, but requires the observance of certain rules:

A fee of 50 cents must be paid to help defray the expenses of the banking service for the season.

All students must be careful to issue only such checks as will be honored upon presentation. Any check not honored will subject the student who presented it for payment to a fine of 50 cents, and the third offense will cause the college to withdraw its services from the offender.

Bookroom Deposit

Each student is expected to deposit at least $10.00 at the beginning of each semester with the manager of the Bookstore, who will issue books as they are needed, and charge against this deposit. Where no deposit is made, credit will not be extended for books. This ruling has been found absolutely necessary from past experience.

The Use Of Electricity

The College has recently installed the most modern system of dormitory lighting that science has been able to provide. No other lights are permitted in the dormitories. All lights must be turned off when occupants leave the room. A fine of twenty-five cents will be charged for failure to do so.

Day Electricity. Lights will be used when necessary during the day, but the careless use of electricity during the clear part of the day will be charged at the regular rates.

EXPENSES FOR THE COLLEGE YEAR

Board (including room, light, heat, attendance of resident nurse, gymnasium and infirmary fee)	$315.00
*Tuition (not including fees)	100.00
Registration Fee (to be paid at time of registration)	30.00
Library Fee	5.00
Laboratory Fee (General Biology or General Chemistry)	15.00

The above is divided into four payments for the four quarters in the year. On entrance in September, Registration fee $30.00 and $153.75; November 20, $93.75; January 20, $93.75; March 20, $93.75.

Any additional charge, specials, or fees, will be divided into four equal sums and will be added to the above four payments.

Home Economics Course (exclusive of laboratory fees) adds $25.00 to the regular tuition.

If any Home Economics subject is elected for any course other than the Home Economics Course, the charge is $25.00 for the extra subject, or $5.00 more than a regular literary subject.

Secretarial Administration Course (in Sophomore year) adds $30.00 to the regular tuition.

All charges are payable as stipulated, quarterly in advance. Special attention is called to the fact that the first quarter is larger than the other quarters because of expense incident to the registration of students, and also to the fact that if a student should drop out, loss would be incurred by the College if only one-fourth were collected for the first quarter.

Laundry, books, stationery, and budget fee are personal matters and are not included in the above charges.

Student Activity Funds

There are certain expenses incident to participation in student life such as contribution to the literary societies, athletic associations, class organizations, etc. These matters are cared for by a Budget Fee of $10.00 payable to the Treasurer of Student Government at a date set early in the first semester. It is not included in the charges herein listed.

Enrollment

The enrollment of students is upon the basis of a formal application signed by the parent. It is of course intended for the college year. When an application is accepted, the Management pledges itself to hold a room for the student thus accepted,

*These fees will not be included in the exhibit sent on entrance, but are to be paid when the work begins.

for the entire year. When a student remains as long as three weeks in any quarter, there will be positively no deduction for withdrawal during the quarter, except in the case of illness of the student, certified to by a physician. Should a student leave before the end of three weeks in any quarter, she will be charged for the full time of residence plus $25.00 for the room thus vacated.

Withdrawal at Christmas Time

Students who do not return after the Christmas holidays will be expected to pay the remaining part of the quarter, and positively no deduction will be made for such absences under any circumstances.

Discounts

Daughters of Ministers of the Gospel will be given free tuition in all literary branches, but will be charged catalogue prices for board, special studies, and registration fee.

A discount of five per cent will be given where two or more students come from the same family and are taking full literary work. Two discounts may not be given the same person. No discount on Specials or Fees.

Self Help

A limited fund is available to students who are in need of financial assistance. Attention is called to the fact that there are four conditions upon which this may be received:

(1) Actual need of assistance.
(2) Deportment and loyalty to the administration.
(3) Creditable standing in classes.
(4) Continuation through the session.

Any student who fails on any of the above points will forfeit the assistance and should a student withdraw or be sent from the institution, the used portion of the allotment for the year will be expected to be returned.

Important Regulations

No diploma will be delivered until all bills are settled.

No transcript of record will be given to a student whose bills are not fully paid.

A graduation fee of five dollars for Diploma is charged at the close of the college course.

Pupils matriculating during the first three weeks of the term are charged as from the first day of the term. After that time, they are charged from the date of entrance.

No deductions for any cause will be allowed to students withdrawing during the last four weeks of the session.

Should serious or critical illness occur, the most skilled physicians of the city are called in. In this case, their fees must be paid in addition. Also, all medicines prescribed for special cases must be purchased at the expense of the patient. The Infirmary has a nurse, but in case of serious or protracted illness a special nurse will be employed at the expense of the patient.

For all corner rooms there will be an additional charge of $5.00 per occupant. All other rooms are exactly the same and will be assigned in the order of paid application. A deposit of ten dollars must be made to insure the engagement of a room, which will be credited on first statement rendered.

Pupils are not admitted to classes until bills are paid, unless by special agreement.
